---

### CAREER SUMMARY

**Android Developer certified by Google, specializing in building high-performance native mobile applications.** Recognized as a top performer at Bangkit Academy, I combine deep expertise in Kotlin/Java with a strong background in backend architectures and cloud computing. My full-stack perspective allows me to seamlessly integrate mobile frontends with complex backend systems and APIs.

### EDUCATION

Bachelor of Informatics Engineering | Teknik Informatika, Universitas Kuningan 2026

### TECHNICAL SKILLS

Fullstack Web| Mobile Android | Google Cloud | React Typescript | Laravel | Golang | Kotlin/Java | Microsoft Office

### EXPERIENCE

**Juara GCP, Juara Android | Google Event** 2022- 2024

- Recognized among the top 1000 participants out of thousands in the Google Cloud Platform (GCP) competition.
- Achieved a top-tier ranking in the Android development competition, demonstrating advanced skills in mobile app creation
- Strengthened expertise in cloud computing and Android development through hands-on challenges and competitive problem-solving.

**Paguyuban Barudak Komputer |Head of external division** 2023 - 2024

- As a member, actively participated in organizing events and training sessions focused on computer science and programming.
- Promoted to Head of External Division, managing partnerships and external communications to expand the organization's reach.
- Played a key role in fostering collaboration with other organizations to conduct impactful tech events.

**Bangkit Academy | Mobile Development** 2024 - 2025

- Achieved top 10% distinction in mobile learning path.
- Acted as the project manager for the capstone project "Ruang Tenun," a mobile application designed to promote local cultural heritage.
- Gained expertise in Android development, project management, and cross-functional team collaboration.

**Laboratory Asistant | Fakultas Ilmu Komputer** 2024 - 2025

- Assisted students during practical sessions, providing guidance in programming and software development.
- Facilitated hands-on learning experiences and ensured smooth operations in the lab environment.

- Collaborated with lecturers to design and evaluate lab exercises, enhancing the learning process for students.

**Fullstack Developer | One AI Assistant** 2024 - 2025

- Developed One AI Assistant, a fullstack web-based AI chatbot solution that provides intelligent answers from custom knowledge bases, helping businesses automate customer support and improve user engagement.
- Built end-to-end architecture covering frontend (React, Tailwind), backend (Node.js/Express, Firebase/Firestore), and LLM integration, ensuring scalability and performance.
- Implemented RAG (Retrieval-Augmented Generation) pipelines to deliver accurate, context-aware conversational responses.
- Designed and developed secure, customizable chatbot plugins, enabling deployment across various industries.
- Collaborated on UI/UX design, API development, and database modeling, ensuring smooth integration between client and server.
- Optimized system for real-time communication, authentication, and multi-tenant deployment, aligning product features with user needs.

**Kerja Praktek Ganeshlabs Consultation |Project Manager** Sep 2025 - Jan 2026

- Led the development of a full-stack consultation management platform using Next.js, Prisma, and Supabase, managing project timeline, resources, and deliverables.
- Coordinated cross-functional development of key features including real-time chat system, appointment scheduling with Google Calendar integration, and project workflow management with Kanban board.
- Managed project architecture decisions and technical documentation, including authentication flows, localization implementation (English/Indonesian), and database schema design.
- Oversaw the implementation of role-based access control (RBAC) system supporting multiple user roles (Admin, PIC, Client) with specific permissions and workflows.
- Facilitated sprint planning and stakeholder communications to ensure alignment between business requirements and technical implementation.

**ACHIEVEMENT**
